Through a variety of enlightening activities and games, students discover their own leadership potential and develop skills to make a difference in the world! Kids have the makings of being a great leader; they just need the training and practice to develop it. In this hands-on program, students learn the key elements of successful leadership and have a lot of opportunities to lead group activities, practice creative brainstorming, give constructive feedback, openly receive feedback, cooperatively resolve conflict, apply the project management process and more! Learning Leadership skills at a young age is a great way to put your child on the path to success and happiness.

A volunteer for this class is needed. Your child will receive a 50% discount on tuition.

Nancy Sheain is the president and founder of Building Futures, LLC and the newly formed nonprofit, Amazing Futures Foundation. These companies are dedicated to helping kids with success, resiliency and self-esteem. Nancy has the wonderful mix of corporate management experience and personal develop expertise. She's the author of *Turning Losses into Wins: Creating the Success Mentality, Gaining Kid Cooperation* and the *Smashing ANTs Toolkit*. She provides training and coaching to educators, parents, and kids. Over the past several years she has provided the widely popular Smashing ANTs: Kid Empowerment After School Program to several Howard County Elementary Schools including Centennial Lane.
